BIAZA Marine Mammal Survey 2018

Join us on a marine mammal weekend and learn all about whales, dolphins and seals of the UK. On our two day events Day 1 includes a training session on marine mammal survey techniques, ecology, behaviour and conservation, followed by a land watch in our study zone. Day 2 includes either a boat based or land based survey, weather dependent.

By joining our marine mammal event you will be contributing to the conservation of cetaceans and seals of the UK and will learn how to get involved and contribute to the ongoing data collection of our partners The Sea Watch Foundation.

Date 1 7th 8th July
Date 2 18th 19th August
Date 3 29th 30th September

Colwyn Bay North Wales
