“My son will finally have a special story to tell on his first day back at school after the holidays. Thank you!”

Roslyn Neely, Edinburgh Children's Hospital Charity

"We love this partnership and most importantly the positive impact it has on children and young people in hospital is clear.
Rebecca relates whatever children are facing to the animals in RZSS' care...
Having blood taken? Here's how a polar bear does it! Worried about injections? Look at this film of an anteater having a jag!
It's such a great way to reduce anxiety and help children feel less alone when facing potentially scary procedures."

I just wanted to thank a member of your staff for the kindness and compassion they showed myself and my little daughter. We went by the new cheetah enclosure and a lovely volunteer named Frank engaged brilliantly with my wee six-year-old Aaria. I told him that we had spent today at the zoo to create some memories having lost my little one's dad a year ago and the zoo was the last place we had visited with him.

Frank was kind enough to allow us to see some of his photos of the cheetah which absolutely made my day. He then offered my little one a gift to treat herself to something in the shop. Of course, she got herself a wee cheetah to remind herself of her dad.

I wanted to highlight what a difference Frank has made, touching my heart to the point I was in tears. Also thanks to the young lady in the shop. Her kindness was shown when she offered my little girl a magnet to take home as it was a special occasion. Thank you for an amazing and unforgettable day. We have created some magical memories at the zoo and I will be forever grateful!
