for an application form

BIAZA are excited to collaborate with the Animal Behaviour Training Council (ABTC) on this unique scheme which will shape the future of animal training in zoos and aquaria, setting precise standards to adhere to and ensuring science-based training methodology is entrenched as best practice.

This **ten month** accreditation scheme will be delivered over three terms (September – July) with weekly taught sessions. Throughout the course there will be four assessments which will appraise your theoretical understanding and practical competency.

The course will be delivered by tutors and assessors Jim Mackie (ZSL) and Jo Mason (South Devon College). All assessments will be independently moderated by the ABTC.

Individuals who successfully complete the scheme will acquire Registered Animal Trainer status with the ABTC.

£750 per person
